

GRADER BLADES

AGMAX Grader Blades are an essential implement for road maintenance as they can be used to grade roads, level soil or clear paths. They are also good for creating garden beds, drains and farm tracks, scraping mulch, forming fire breaks, cleaning up along fence lines, clearing scrub and repairing and maintaining driveways.

Grader Blades will allow you to create and maintain culverts and rectify areas prone to rutting and corrugation. They attach to your tractor's three point linkage and can be angled for steering road material. They are also reversible for dozing or "smudging" and the replaceable blade can be turned upside down for an extended lifespan.

MODEL	GB120	GB150	GB180
TRACTOR HP	17-25	25-30	30-45
THREE POINT LINKAGE (TPL)	CAT 1	CAT 1	CAT 1 OR 2
LENGTH	1050 MM (3'5")	1050 MM (3'5")	1050 MM (3'5")
WIDTH	1300 MM (4')	1500 MM (5')	1800 MM (6')
HEIGHT	1100 MM (3'7")	1100 MM (3'7")	1100 MM (3'7")
WEIGHT	63 KG	67 KG	71 KG
NO. OF ANGLE SETTINGS	5	5	5
