

FINISHING MOWERS

AGMAX Finishing Mowers are the implement of choice for excellent lawn presentation and are often used on golf courses, sporting fields, parklands, homesteads and roadsides.

Attaching a Finishing Mower to your tractor allows greater speed, power and cutting width than a ride on mower and is very suitable for small acreage grass cutting. Similar to an out-front or mid-mounted mower, a Finishing Mower is attached to your tractor's three point linkage and is easy to attach/detach.

For a gentle footprint, the AGMAX Finishing Mower works well combined with fitted Turf Tyres.
